

DURA
Value Chairs

In addition to the features of the Cita budget seat, the “Dura” seat offers moderate tilting of the seat and backrest. Dura seating is an economical alternative to other so called industrial seating systems that were intended for office use and not specifically designed for the harsh production environment.

- Polyurethane seat and backrest molded on 7-ply plywood.
- Seat pan mounted to mechanism with rubber grommets.
- Composite base.
- Available with glides or casters.
- Improved worker comfort and productivity.
