

VIGOR

Workmats

WORKMAT[®] Technology

Mats from Milagon feature WORKMAT[®] Technology: the blend of scientific design and materials that produces truly ergonomic anti-fatigue matting systems that reduce the cumulative trauma disorders commonly found in the standing workplace environment.

Vigor Anti-Fatigue Mats are ergonomically designed to provide a comfortable place to stand for long periods of time. It achieves this by its elastic, nodule design which forces the feet and leg muscles to work even when standing still. This significantly increases circulation and reduces fatigue as well as combats cumulative trauma disorders associated with standing occupations.

- Significantly increases blood circulation and reduces fatigue.
- Combats cumulative trauma disorders associated with standing.
- Elastic design forces muscles to move even when you are standing still.
- Reduces costs associated with absenteeism and lower productivity.
- High chemical resistance.
- Easy to clean.
- Manufactured in the U.S.A.
- Standard size is 2' x 3' 5/8" thick mat with outside edge beveled 3/4".
Custom sizes available.

Applications:

Ergonomic floor covering for factories, offices, laboratories, restaurants, canteen kitchens, workshops, government institutions, schools, gas stations, railway stations, airports, wholesale and retail stores, clean rooms or any stand-up work place.

Wear characteristics	The Vigor WORKMAT is guaranteed against wear for five years continuous usage in nonabrasive environments. It will not lose its elasticity and will provide continuous ergonomic benefits.
Cleaning:	Sweep or vacuum as appropriate. The Vigor WORKMAT may be hosed down easily and washed with a string mop if necessary.
Chemical resistance:	Not normally affected by acids and base commonly used in industry.
Raw material	Soft Polyurethane
Color	Dark charcoal
Standard sizes	2' x 3'
Bonded sizes	To Order
Outside Edge	3/4" Beveled
Thickness	5/8"
Weight	1 pound per square foot

Features:

- Beneficial elastic design forces muscles in your feet and legs to move even when you are standing still.
- Significantly increases blood circulation and reduces fatigue.
- Effectively combats cumulative trauma disorders associated with standing work positions.
- Durable, easy to clean, and shock absorbent.
- Manufactured in the USA.
